## SWDV-130 Introduction to Web Applications

## Grading Rubric – Project 3

Durango Jewelry Website

necklace.jpg and jewelry.jpg are images to be used in the website You add to the external style sheets associated with this project

Description	Points
Create the website folder structure as shown:	1
Move assets to the applicable folder  - css	
fonts images	
© catalog.html	
© index.html	4
Edit the styles.css and stylesTable.css files:	4
Insert a comment that includes your name and the date.	
For the index.html file, do the following:	
<ul><li>Insert a comment that includes your name and the date.</li><li>Add utf-8</li></ul>	
Add a meta description that says "One-of-kind jewelry inspired by Mother Nature"	
Add all meta tags as practiced	
Add title "Durango Jewelry"	
Create the link to the external style sheet styles.css	
For the index.html file, do the following:	4
<ul> <li>Insert <div id="outerwrapper"> opening tag just after the opening body tag</div></li> </ul>	•
o Insert  closing tag, before the closing  tag	
For the styles.css file:	
o Set the border radius for all four corners at 15%	
o Already done for you set the background color rgba(243,205,170, 0.4);	
In the styles.css file:	6
o Insert the style to limit the outerwrapper to 70% of the width of the screen and to	
center the content within the outerwrapper (reference	
Instructions_MidtownRecScheduleAssignment.pdf)	
Add the background jewelry.jpg image and target the html tag	
o Position at the <i>top</i>	
<ul> <li>Set the image not to repeat</li> </ul>	
o Set the image to <i>cover</i> the background	
In the styles.css file:	3
o Footer section styling, set the text to a font size of 1em and center the text	
o Add padding of 10px	
In the styles.css file:	8
Main section styling,	
o Linear-gradient going from #FFFFFF to #F0F9E6	
o Add a padding of 10px	
o Add a margin of 20px	
o Set the border radius for all four corners to 2em	
o Font size of 1.25em	

To the necklace image tag, add a class attribute called addrightmargin Add to the necklace image, a hyperlink to index.html In the styles.css file: Add a styling definition for addrightmargin, push the content away from the image by setting a right margin of 10%  In the styles.css file: Remove the builtets from the list items in the nav section Set font size to 1.5em Clear the float on the nav tag  Change the font used to display the sh1> tag Durango Jewelry Find Pacifico Google Font available at <a href="https://fonts.google.com/">https://fonts.google.com/</a> Specify a font size of 4em  Must use Pacifico Font  Change the font used to display the sh2> tag Wire Wrapped Jewelry and Pendants Select a font (your choice) from Font Squirrel website <a href="https://www.fontsquirrel.com/">https://www.fontsquirrel.com/</a> Specify the font size of 2em  Example uses Roboto Font  Index.html, add to the footer: Add a hypertext link for the phone number: 317.759.4940  For the catalog.html file, do the following: Catalog.html file, do the following: Create the link to the external style sheet styles.css Create the link to the external style sheet styles.css Create the link to the external style sheet containing table styles  For the catalog.html file, do the following: Add the table element with the information shown in the screenshot  For the index.html and catalog.html file, do the following: provide the navigation links to the html files for Home and Catalog  Take a screenshot of validator results for index.html Take a screenshot of validator results for index.html Take a screenshot of validator results for catalog.html Take a screens		70
To the necklace image tag, add a class attribute called addrightmargin Add to the necklace image, a hyperlink to index.html In the styles.css file: Add a styling definition for addrightmargin, push the content away from the image by setting a right margin of 10%  In the styles.css file: Remove the bullets from the list items in the nav section Set font size to 1.5em Clear the float on the nav tag  Change the font used to display the <h1> tag Durango Jewelry Find Pacifico Google Font available at <a href="https://fonts.google.com/">https://fonts.google.com/</a> Specify a font size of 4em  Must use Pacifico Font  Change the font used to display the <h2> tag Wire Wrapped Jewelry and Pendants Select a font (your choice) from Font Squirrel website <a href="https://www.fontsquirrel.com/">https://www.fontsquirrel.com/</a> Specify the font style as italic Specify of font size of 2em  Example uses Roboto Font  index.html, add to the footer: Add a hypertext link for email address: gemologist@durangogem.com Add a hypertext link for the phone number: 317.759.4940  For the catalog.html file, do the following: Catalog.html HTML wireframe should be based on index.html wireframe Edit the meta description to say "Catalog of hand-crafted necklaces, rings, bracelets, and earrings" Create the link to the external style sheet styles.css Create the link to the external style sheet styles.css Create the link to the external style sheet containing table styles  For the catalog.html file, do the following: Add the table element with the information shown in the screenshot  For the index.html and catalog.html file, do the following: Provide the navigation links to the html files for Home and Catalog  Validate the HTML &amp; CSS Files, make sure that the file name is shown on your screenshot (use the "validate by file upload" option Take a screenshot of validator results for catalog.html Take a screenshot of validator results for styles.css Make sure that the file name is shown in your screenshot; using the "Validate by File Upload" option</h2></h1>
